Support (BTCLS)
Poltekkes Kemenkes Jakarta 3,
2019

Volunteer Contact Tracer
Puskesmas Kecamatan
Duren Sawit, 2020

ORGANIZATION

Head of Information and Communication

Ikatan Alumni Poltekkes
Kemenkes Jakarta 3
2023 - Present

PROFESSIONAL EXPERIENCE

HRGA Staff

PT. Bina San Prima, Karawang | May 2021 - April 2024

- Managed personnel administration, PKWT registration with Disnaker, and mandatory company reporting to Kemenaker.
- Handled employee attendance, shift management, and payroll processing data.
- Registered and managed employee BPJS Kesehatan benefits using the Edabu system.
- Executed end-to-end recruitment and resignation procedures.
- Maintained updated employee databases and organized HRGA documentation.

Contact Tracer (Covid-19)

Puskesmas Kecamatan Duren Sawit | November 2020 - March 2021

- Conducted contact tracing, testing, and treatment monitoring for Covid-19 patients.
- Coordinated follow-up communication and documented case progress to support public health response.

PROFILE STRENGTHS

- Balanced clinical, administrative, and public health experience across healthcare and corporate settings.
- Able to manage patient-facing care while maintaining accurate documentation and operational discipline.
- Quick learner with strong communication, teamwork, problem solving, and loyalty to the organization.

SEHATI - EMR UKS Sekolah Rakyat

Sistem pelayanan kesehatan digital terintegrasi untuk pencatatan UKS, data siswa, stok obat, laporan, dan dukungan keputusan keperawatan.

EMR UKS

FastAPI

SQLite/PostgreSQL

Role-Based Access

Project Overview

SEHATI adalah aplikasi Electronic Medical Record (EMR) untuk layanan UKS Sekolah Rakyat. Aplikasi ini dirancang untuk membantu petugas kesehatan mencatat kunjungan siswa, mengelola data pasien, mencatat obat, membuat laporan, dan menjaga alur administrasi klinik sekolah lebih tertib dan mudah ditelusuri.

Care support

Clinical & Operational Features

- Pencatatan identitas siswa/pasien dan riwayat kunjungan UKS.
- Input keluhan, pemeriksaan, diagnosis, tindakan, catatan, rujukan, dan kontrol.
- Manajemen pemberian obat per kunjungan serta stok minimum obat.
- Laporan kunjungan harian, bulanan, PDF, Excel, dan mutasi obat.

Governance & Safety

- Login dengan autentikasi JWT dan session cookie.
- Role admin dan perawat untuk membatasi akses halaman dan endpoint.
- Audit log aktivitas penting seperti login, edit data, dan manajemen user.
- Backup database lokal dan opsi migrasi ke PostgreSQL Railway.

Role Contribution

- Menerjemahkan kebutuhan layanan UKS menjadi alur digital: registrasi siswa, kunjungan, tindakan, obat, rujukan, dan laporan.
- Memberikan perspektif klinis keperawatan agar istilah, formulir, dan output laporan sesuai kebutuhan petugas kesehatan.
- Mendorong dokumentasi yang rapi, mudah dicari, dan dapat dipertanggungjawabkan untuk aktivitas pelayanan kesehatan sekolah.

Tampilan awal aplikasi EMR yang digunakan sebagai bukti visual proyek.

Login page aplikasi SEHATI - Sistem Pelayanan Kesehatan Digital Terintegrasi untuk Sekolah Rakyat.

Technical Scope

- Backend API menggunakan FastAPI dengan database SQLite lokal dan dukungan PostgreSQL untuk deployment.
- Data model mencakup users, audit logs, patients, assessments, recommendations, UKS visits, medication records, inventory, CKG events, screening stations, referrals, dan recommendation letters.
- Deployment disiapkan melalui Dockerfile, Procfile, railway.json, dan panduan Railway dengan environment variables.
- Integrasi tambahan mencakup rekomendasi AI, notifikasi WhatsApp via Fonnte, serta export PDF/Excel untuk laporan.

Portfolio Narrative

Project ini menunjukkan kemampuan menggabungkan pengalaman klinis keperawatan, administrasi kesehatan, dan pemahaman alur kerja digital. Nilai utamanya adalah membuat proses UKS lebih cepat, terdokumentasi, dan mudah dilaporkan tanpa menghilangkan kebutuhan clinical judgment petugas kesehatan.
